Visit the RSPB Reserve

Drop in at Totronald RSPB information centre Friday morning 9am to 12noon

Start time: any time to suit you

Take time to listen to and look for corncrakes from the viewing platform. Watch lapwings, possibly see a hen harrier, hear snipe drumming, see what has been spotted in recent days, or read the interpretation boards in the information centre. Saunter down to beautiful Hogh beach. Ben will be in the office during the morning and is happy to answer any questions you have about the birds, the reserve and their work.

How to get there: Turn left out of the community centre and follow the left-hand road past the now closed Free Church on the right; the Lodge also on your right (there is a heronry in these woods); Old Hall on the left which is now a second-hand shop, and worth a visit while you are here; past Coll medical practice on the right; the twin lochs where geese can often be seen and sometimes red throated divers. There are great views of Mull and the Treshnish Isles and look out for hen harriers along the way. Keep following the road until you see the two castles over to the left and shortly after the airport on the right, carry straight on to the T junction. Turn right here

Please note all boat trips are weather dependent and times may vary a little depending on the tide or weather conditions. If a trip has to be cancelled an alternative event will be organized, exploring the birdlife on Coll, led by one of the weekend's leaders. Transferring from the boat to the island can sometimes be tricky depending on the sea conditions. Please discuss this with one of the weekend's volunteers if you think there is likely to be any difficulty with this.
